

Special Considerations for Reptiles

A snake may be transported in a pillowcase, but you should have permanent and secure housing for him when you reach a safe place.

Take a sturdy bowl that is large for your pet to soak in. It's also a good idea to bring along a heating pad or other warming device, such as a hot water bottle.

Lizards can be transported in a secure travel cage or carrier.

Make certain you have a cover over your pet's cage. This may also help reduce the stress of traveling.

Keep the carrier in as quiet an area as possible.
