Green Tips

Summertime Green Scene

Green grillin' & chillin'!

Summertime is all about BBQs and get-togethers with friends and family. Purchase local or organic food options to satisfy your craving for delicious, fresh produce this season. Visit the Vallco Farmer's Market (open every Friday from 9AM-1PM!) to get some goodies for your next gathering. If BBQing this season, consider replacing your charcoal grill with a gas grill that generates fewer air pollutants! Visit <http://www.earthshare.org/2008/09/now-thats-cookin.html> to learn more green summer cook-out tips!

Keep it cool!

With temperatures heating up try these tips to keep cool and keep your energy usage and costs low! Before you turn on your air conditioning this season be sure to have it professionally maintained to ensure energy efficiency. Program your thermostat to higher temperatures throughout the day when no one is home. Don't have AC at home? Consider drawing the blinds in your home (especially for south-facing windows) to cool at no cost! For more tips to keep your home cool this summer visit: <http://www.earthshare.org/2008/09/keeping-cool.html>.

Venture in to the great outdoors!

Planning a vacation this summer? Educate your family about the environment while visiting some of the most beautiful spots on our planet. The Sierra Club has many featured outings this summer that will be both educational and inspiring! Check out these outings at: <http://content.sierraclub.org/outings/national/featured-trips>. National Geographic also suggests these "out of the box" outdoor trips for your family to consider: <http://travel.nationalgeographic.com/travel/family-trips/best-us-outdoor-family-vacations/>.

Be beach ready!

Before you have fun in the sun, take a peek at this guide created by the EPA to help you plan a safe day at the beach: <http://www2.epa.gov/beaches/plan-trip-beach>. Hot days can affect the quality of our fresh air, so be sure to enroll yourself to receive Spare the Air Day alerts at www.sparetheair.org. And don't forget to lather up! Check out the Environmental Working Group's Guide to Safer Sunscreen: <http://www.ewg.org/2014sunscreens/> to find safer solutions to keep you protected from the sun's rays.

Reap in the rebates!

The Santa Clara Valley Water District (SCVWD) Landscape Conversion Rebate is in full effect through June 30! If your home has high water-using landscape, find out how you can receive a rebate for converting to low water-using landscape. Earn up to \$2.00 per square foot of converted high water-using landscape (i.e. swimming pool) and use the savings to plan a family weekend get-a-way! To learn more about this rebate opportunity, visit: <http://www.valleywater.org/Programs/LandscapeReplacementRebates.aspx>.

*"What's in a name?
that which we call a rose by any
other name would smell as sweet"*
- Romeo and Juliet

✿ Written by William Shakespeare ✿ Directed by Rebecca J. Ennals ✿

All are invited to 'Romeo and Juliet' - Shakespeare's remarkable genre-defying play, which soars to the heights of romantic comedy before plunging into heartbreak. SF Shakes Artistic Director Rebecca J. Ennals continues her historically-based, thoughtfully relevant approach to Shakespeare's plays with this beloved favorite, filled with some of Shakespeare's most beautifully poetic language. While the doomed lovers will always be remembered for their romantic devotion, this tale of five young lives needlessly wasted could have come straight from today's Twitter or Facebook feeds. A culture of violence, inherited from past generations, leads young people to harbor meaningless prejudices and commit terrible acts. Shakespeare's young characters live secret lives unknown to their parents, and love, kill, and die without most of the older generation knowing why. How does a community recover from a culture of violence? Shakespeare leaves us with the possibility of hope and healing, a message much needed today.

Cupertino Recreation and Community Services Department is a proud agency member of the National Recreation and Parks Association. NRPA stands alongside our agency in the responsibility to be the significance and impact of our collective work, elevated by these three pillars.

Parks are critical in the role of preserving natural resources that have real economic benefits for communities. The Recreation and Community Services Department is for protecting open space, connecting children to nature, and providing education and programming that helps our community engage in conservation practices.

The Recreation Department is dedicated to improving the overall health and wellness of our community. We are committed in combating some of the most complicated and expensive challenges our country faces—poor nutrition, hunger, obesity, and physical inactivity.

Universal access to public parks and recreation is our department's goal. Every day we are working hard to ensure that all members of our community have access to the resources and programming we offer.

Red Cross swim classes are designed to help swimmers of varying ages and abilities develop their water safety, survival, and swim skills. Courses are age-appropriate and fun, helping participants stay motivated and achieve success on a regular basis.

As children progress through the levels, they increase their comfort level in and around the water.

Courses are available for a variety of ages and skill levels to encourage healthy, lifelong recreational habits and to help keep your family safe.
