Diana Matley, Michael Sanchez

Pride in Cupertino comes from our shared sense of its unique identity. We believe public art should convey our collective imagination. It symbolizes our diverse values, hopes and dreams. It expresses who we are as citizens and who we are becoming as a community. It speaks to our lives here today in this place we call home, and for generations to come, it is art created for all of us.

-The Cupertino Fine Arts Commission, 2015
