Exploring Life On The Edge at Monterey Bay Aquarium

Friday, August 12 - 8:15a-5p

Baja California is a 800-mile-long narrow peninsula in northwestern Mexico, separated from the mainland by the Gulf of California. With almost 2,000 miles of coastline, sun-scorched desert, lush mangrove forest and colorful coral reefs, Baja is a land of contrasts, where unique plants and animals survive and thrive.

We will get a private insider's look at the Aquarium by exploring exhibits with their most seasoned guides on our docent-led tour. Through their personal stories and insight we'll uncover new animals and fishes, step behind the scenes to discover the secret lives of jellies, and hear about the Aquarium's groundbreaking research efforts with marine wildlife.

Whether you're a first-time visitor or a long-time member, you'll gain a fresh perspective on what makes this Aquarium one of the best and most beloved aquariums in the country!

Just outside the doors of the aquarium is the lovely, historic Cannery Row. With its picturesque charm and colorful history, Cannery Row captivates visitors from all over the world. The unique appeal of this fabled street is what makes Cannery Row the most popular vacation destination on California's Central Coast. With luxurious waterfront hotels, enticing restaurants and captivating boutiques, Cannery Row is the ideal place to soak up the culture and beauty of Monterey Bay!

We will have time to explore both the aquarium and Cannery Row. With multiple dining options, both inside and outside the aquarium, the abundance of choices will allow you to choose your favorite spot! Dining recommendations will be given.
