

Candidate Statement for David Fung
Occupation: Engineering Consultant/Volunteer
Age: 56

Cupertino has been my home for 30 years. After graduating from Stanford and during my 11 years working at Apple, I was drawn to the energy that transformed Cupertino into a hub of global innovation. I'm dedicated to maintaining that spark for your family and mine.

Over the past 10 years, I've been a hands-on community volunteer. During my six years on the Parks & Recreation Commission, I've helped define and deliver the Environmental Education Center and Stevens Creek Corridor projects, encouraging vigorous public input. I represent parent viewpoints on the FUHSD Math Advisory Council. As a Friends of Deer Hollow Farm Board Member, I work to enhance this landmark, both today and for the next generation.

If elected, I'll advocate for development at a proper scale, seek effective regional traffic solutions, and strengthen city-to-school partnerships. I believe in fact-based decision-making and achieving workable compromises through inclusion and respect. I pledge to seek collaborative solutions with the Council and community. My supporters, including former Mayors Orrin Mahoney and Richard Lowenthal and FUSHD Trustees Hung Wei and Bill Wilson, share this goal.

I'm honored for the opportunity to serve you. Learn more at www.fung4cupertino.com.
