## Green Tips

### Summer Green Scene

#### Carbon Free electricity with Silicon Valley Clean Energy

Are you as excited as us about your new community energy provider, Silicon Valley Clean Energy? Silicon Valley Clean Energy (SVCE) is a new non-profit, public agency, formed in spring 2016 by twelve South Bay communities, including Cupertino, to source clean electricity on our behalf at costs below PG&E's comparative generation rates. PG&E is still an essential partner as they will continue to deliver electricity over existing power lines, maintain the lines, send bills and provide customer service.

Enrollment in SVCE's GreenStart, which provides 100% carbon-free energy, is automatic to residents and businesses in Cupertino and will take place over a six-month period, in three phases – April, July and October 2017. You will know when you're enrolled when you receive notices in the mail. You can expect to receive two notices before enrollment, and two after enrollment. If you are really interested in renewable electricity for your home or business, you can upgrade to GreenPrime anytime and start receiving 100% electricity for a small premium.

For more information, visit [SVCleanEnergy.org](http://SVCleanEnergy.org) or call (844) 474-SVCE.

#### Going green – there's an app for that!

These days, there is an app for everything – even for helping us protect our environment and health. Next time you're racking your brain for a way to reduce your environmental impact, put your tech savvy skills into practice and check out one of the following green apps:

- **Think Dirty®** - This mobile app allows you to scan the barcode of cosmetic products and get easy-to-understand info on the product, its ingredients, and cleaner options.
- **EWG's Skin Deep®** - EWG's Skin Deep app provides ratings for a wide range of cosmetic products on the market to help you protect yourself and your family from everyday exposures to chemicals.
- **iRecycle®** - An app that helps you find local recycling opportunities for many different materials.
- **Images of change** - This app created by NASA displays side-by-side images of our planet before and after it was affected by climate change and natural disasters.

## Co-sponsored Clubs

The City of Cupertino co-sponsors a variety of clubs. If you are interested in joining one of the co-sponsored clubs or you would like information about meeting times and locations, please contact the listed individuals or program coordinator at 408-777-3120.

**Judo Club** ~ 5-14 years old  
<http://www.cupertinojudoclub.org>

**Kung Fu Club** ~ Families/Adults
