REQUEST FOR PROPOSAL**

Professional Services For Apple Campus 2 Transportation Demand Management (“TDM”) Monitoring Program For City of Cupertino

The City seeks the services of a qualified consultant for the preparation and execution of a TDM Monitoring Program focused around the Apple Campus 2 project. As identified in the Apple Campus 2 Project Environmental Impact Report, Apple committed to reducing the amount of traffic generated by its development and is required to implement several TDM measures. A monitoring program is required to ensure that the TDM measures are implemented and the required trip reduction is achieved. The TDM monitoring program will start 6 months after initial occupancy (currently anticipated for April 2017) and will continue over the life of the project. The consultant will develop the TDM monitoring program approach for the life of the project, and collect data and present the results in a TDM Monitoring Report for the first three (3) years of monitoring.

Interested firms should obtain a full copy of the RFP from the City’s web site at:

<http://www.cupertino.org/index.aspx?page=659>

Please contact the Department of Public Works for additional information at 408-777-3354.

Proposals are due at the Cupertino City Hall at the Department of Public Works no later than 3:00 p.m. on Monday, May 1, 2017.
