

## Street Light Installation – Randy Ln. & Larry Wy.

### DESCRIPTION

Design and install street light installations to fill gaps in street light coverage.

**Budget Unit:** 420-99-058  
**Estimated Project Costs:** \$367,000  
**Requesting Dept.:** Public Works

**Priority:** 1  
**Location:** Randy Ln. & Larry Wy.

### PROJECT JUSTIFICATION

Larry Way and Randy Lane both have gaps in street light coverage that exceed the City's street light spacing policy. Both streets have been designated semi-rural, which has resulted in a waiver of sidewalk installation, causing pedestrians to walk in the street. Additionally, Lawson Middle School is located immediately south of these streets with the associated student pedestrianism. Residents have requested additional lighting along these streets, and Public Works Staff finds that the additional lighting is warranted. This project will fill gaps in street light coverage along these streets in order to enhance safety.

### OPERATING BUDGET IMPACTS:

This project will use staff time for the management of this project. Additional annual energy costs will be extremely minor. Both of these costs are included in the department's FY 2018-19 Operating Budget.
