Subject: Vallco Specific Plan DEIR Study Session Missing from Previously Posted Schedule Vallco SB 35

Dear Mayor Paul,

There was a study session for the Vallco Specific Plan DEIR scheduled for today at 5 pm is this now a private meeting or is it still open to the public?

I had sent the attached document regarding the DEIR, it seems that certain important individuals in the city do not understand the DEIR process and requirements the way they are written.

It also seems quite odd that the Envision Vallco site removed the DEIR study session.

If the DEIR is now a relic of a failed effort to bamboozle the public, should we still be reviewing it for comments? Because we have until the start of July to have our comments completed.

Is the study session a legal requirement?

I guess when the City Attorney is sidelined, laws fly out the window.

Are you seriously going to let the 90 SB 35 non-compliance report date by the city pass without lifting a finger and paying M Group in a contract worth \$102K of our dollars to sit on their hands?

I want to see the findings on Vallco SB 35 from the city's contracted work.

It is odd that the City all signed on to oppose SB 35 last year, and now that the largest SB 35 project in the state, which will allegedly ministerially alter Wolfe Rd. to have 11 lanes of traffic in areas plus bike lanes and medians, *by right*, with no supporting EIR, in a configuration which does not look safe, has fallen in the City's lap and yet no one at the City

has the **intellectual curiosity** to determine if the plan is SB 35 compliant.

- Please inform the public regarding the status of the 5 pm Vallco DEIR Study Session Today.
- Please inform the public whether the Vallco SB 35 project is not compliant *with supporting documents* just like the City of Berkeley did.

Thank you,

Kitty Moore
