Join the Conversation: City Council to Consider Business License Tax Restructuring

Cupertino City Council is looking for ways in which to fund transportation projects to alleviate traffic

congestion and to provide affordable housing options.

As a local business owner it is extremely important you join the conversation to discuss how this may potentially affect your business.

You and your company representatives are invited to attend a **Business License Tax Forum** on:

Date: Tuesday, July 24, 2018

Time: 9:30am-11:00am

Location: Cupertino Community Hall, located at 10350 Torre Avenue

Local businesses strengthen the city's economic vitality and are an essential part of our Cupertino community. We appreciate your support and look forward to working together on a solution for our community.

For more information and to take a survey, please click [here](#).

This new program is brought to you by popular demand! Experience 34 activities at 11 locations, ranging from a 1-hour "Fitness in the Park" class to a full-scale neighborhood event. Enjoy movies, concerts, activities, and classes designed to bring the Cupertino community together. The series includes culturally-diverse events and all-ages entertainment! See you this summer!

Climate Friendly Cuisine: Food Service Guidance and Best Practices for a Healthy Planet

A full day educational conference will be held on Tuesday, September 11, 2018 for food service professionals, including restaurants, caterers, hospitals, educational institutions, corporate campuses, entertainment venues, and other institutions that serve food. Key topics to be covered are plant-forward meal planning, sustainable sourcing, and minimizing food waste.

Discount codes are available for small businesses and restaurants. You may request a discount code or apply for a scholarship by contacting greencuisine@acterra.org. Space is limited and registration is subject to approval.

This is an Acterra event being hosted by LinkedIn in partnership with the Bay Area Air Quality Management District.

For more information or to register, please visit: www.acterra.org/climate-friendly-cuisine
