Governor, State of California
State Capitol, 1st Floor
Sacramento, CA 95814

RE: SB 13 (Wieckowski) – Request for Veto

Dear Governor Newsom,

On behalf of the City of Cupertino, I am writing to respectfully request that you veto SB 13, which would amend the statewide standards that apply to locally adopted ordinances regarding accessory dwelling units (ADUs).

Specifically, SB 13 would modify the zoning areas where housing is a permissible use, expand the areas in which ADUs can be built, provide that replacement parking is not required for the construction of certain ADUs, remove the authority for local ordinances to require owner occupancy, provide minimum size and height requirements, provide for a tiered schedule of impact fees, and increase state oversight of local ordinances.

State law governing ADUs has been modified a number of times, including during the 2016 legislative session. Local agencies have worked in good faith to craft ordinances that implement those laws and would now be required to reopen those ordinances to reflect any new changes. Local agencies are currently able to amend their ordinances above and beyond state requirements, if that is what is supported in their communities, and this measure would circumvent the local process in favor of a one-size fits all approach to ADUs.

Additionally, SB 13 would prohibit a local jurisdiction from requiring a property owner to live in the main house or one of the accessory structures until January 1,

2025. This would incentivize operating the property as a commercial enterprise and could have the unintended effect of large-scale investors purchasing many single-family homes and adding ADUs, operating more like a property management company. Additionally, owner occupancy requirements could provide greater oversight and an opportunity to provide more affordable rents as a homeowner is less likely to be profit driven.

SB 13 prohibits impact fees on ADUs smaller than 750 square feet and significantly limits the impact fees that may be charged to larger ADUs. Impact fees are an important tool for cities and special districts to provide services, infrastructure, and quality of life for local communities. The impact fee caps in SB 13 will reduce local government funding for public safety and quality of life investments and will put additional pressure on local governments to find alternative sources of funding to finance the infrastructure, services, and other amenities needed for growing communities.

Lastly, SB 13 would, among other things, remove the requirement for replacement parking when a garage, carport, or other structure is modified or demolished for the construction of an ADU. Removing existing parking and creating additional demands for on-street parking will add to the existing parking issues. This provision will put additional cars on to City streets and into neighborhoods, thereby negatively impacting nearby residents, including bicyclists and pedestrians, and businesses as it will be more difficult for visitors to the City to find adequate parking.

It is for these reasons that the City of Cupertino opposes SB 13 and must ask you to veto this measure. Thank you for your consideration.

Sincerely,

A handwritten signature in blue ink, appearing to read "Steven Scharf". The signature is fluid and cursive, with a large initial "S" and a distinct "h" and "f" at the end.

Steven Scharf
Mayor, City of Cupertino
