## Cigna Disability Insurance

For many people, every paycheck counts. What would happen to your bills, your savings and your lifestyle if you couldn't work? You can help protect your financial future with disability insurance in case you get a covered illness or injury that keeps you from earning a living.

Cigna disability insurance pays a portion of your paycheck when you become disabled and can't work for a period of time due to a covered illness or injury. When you think about it, it's kind of like having insurance for some of your paycheck. Disability doesn't always mean a serious handicap. A disability is considered an illness or injury that prevents you from earning your salary.

### How does it work?

With disability insurance, you'll receive a percentage of your salary for a specified period of time, after you meet any applicable waiting period(s). Payments may come directly to you or someone you designate and can be spent any way you like – just like you would use your paycheck. For example, it can help you pay for:

- ▶ Planned expenses like groceries, mortgage or utilities.
- ▶ Unplanned expenses like medical bills.

### Why is it important?

Disability insurance can pay you benefits if you suffer a covered disability – so you can have one less thing to worry about and can focus on getting healthy. When you are ready to return to your job, Cigna also offers extensive return-to-work and vocational coaching services to help you get back to work safely.

#### Consider this

- ▶ **Nearly 3/4** of Americans live paycheck-to-paycheck<sup>1</sup>
- ▶ **More than one in four** 20-year-olds in the U.S. will become disabled before reaching retirement age<sup>2</sup>
- ▶ **Over 60%** of disabled Americans are working age<sup>3</sup>

Together, all the way.®
