2. 7' or 8' tall composite fence
3. No change to fencing

Options for Trailside Properties at No Cost

1. 7' or 8' tall standard wood fence
2. 7' or 8' tall composite fence
3. 7' or 8' tall double wood fence with mass-loaded vinyl
4. No change to fencing

Options for Trailside Properties at a Cost (not to exceed \$170/lf)

1. 8' tall precast concrete

Standard Wood

Composite

Double Sided Wood Mass Loaded Vinyl

Precast Concrete

Estimate of Precast Concrete Cost Include

- State public contract requirements including prevailing wages, bonds and insurance
- Limited access
- Re-establishment of property landscaping

Property owners that select precast

- Reimbursement Agreement signed prior to project going out to bid
- Cost capped at \$170/lf
- Any savings in bid price will be passed on to property owners

If a New Fence is Requested

- Selections are requested by August 21st so that plans can be completed
- No additions or changes to requests once plans are complete
- To allow access, agreement on a temporary construction easement
- If precast concrete, agreement on a Private Fence Reimbursement Agreement

Project Status and Schedule

- Project plans complete – Late 2020
- Project bid – Early 2021
- Construction – Early/Mid 2021
