

My family and I have been residents of Cupertino for past 9 yrs and I've been a Realtor in the Bay area for last 20 yrs. As such I'm acutely aware of the housing issues in the area. My child has attended our public schools since 2nd grade and now a Sophomore in High School. We love our schools. I am happy to volunteer my time to such an important issue for the City of Cupertino and indeed the Bay Area. I'm also a strong believer in the power of the community. I believe that together we can accomplish almost anything. I look forward to a powerful engagement and many accomplishments.
