City Channel Improves Signal Quality

The Cupertino City Channel is improving its signal quality! After 27 years of broadcasting, the City Channel is switching from its original analog transmission network to a new, fiber-based digital carrier. The transition means that Comcast customers will soon be able to watch Cupertino city meetings and other programs with the same clarity and quality as most commercial channels on the system. While

the City Channel will continue to broadcast in standard definition (at least for the near future), many of the video reception issues – ghosting, hum bars, etc. – will be a thing of the past.

In order to accomplish the upgrade, the City Channel has spliced into unused strands within the City's fiber optic traffic network. This fiber pathway now links City Hall with the Comcast hub on Imperial Avenue. The signal is then routed to Comcast's master headend in Santa Clara where it is inserted into the cable system as Cupertino Channel 26--a distance of more than eleven miles.

Final testing of the new fiber link should be completed by the end of the year.

(The Cupertino City Channel is available to Cupertino residents on Comcast Channel 26 and AT&T U-verse Channel 99)

Would You Like To Serve on a City Commission?

Cupertino residents are encouraged to apply for City Commissions with openings in January 2011. On January 24 and 25 beginning at 6 pm, the City Council will interview applicants for these groups: Bicycle Pedestrian Commission; Fine Arts Commission; Housing Commission; Library Commission; Parks & Recreation; Planning Commission; Technology, Information, and Communications Commission.

Applications can be downloaded from the website www.cupertino.org/vacancies. For more details, please see the website or call the City Clerk's Office at 408.777.3223. The deadline to apply is 5:30 pm on Wednesday, January 12, 2011.

Calling all Animal Lovers

Cupertino's Disaster Animal Care team is currently recruiting new members.

No experience necessary. We'll teach you what you need to know.

Minimum annual volunteer participation requirement is only 8 hours, although there are opportunities to be involved to a greater extent. It depends on your availability.

The Disaster Animal Care team is activated when the City experiences an earthquake or other emergency that causes animals to need care and shelter in the absence of their owners. We work closely with the American Red Cross Human Shelter and will also care for the animals of people living in the shelter.

Anyone interested in joining can email cupertinoanimalvolunteers@gmail.com or contact the Office of Emergency Services at 408.722.1210.

If you own pets, be sure you have a plan for them. Earthquakes happen when we least expect them.

Do you ever leave pets home alone overnight? – Do neighbors know to check on them in an emergency?

Do you ever take pets with you in the car without leashes, water bowls, food, etc? – Consider having backup supplies in your car.

Do your pets take medication that would be difficult to obtain if the vet was closed due to quake damage?

More information on pet safety can be found at www.cupertino.org/emergency. Click on the "Links to Preparedness Resources" to find information and videos on Pet Safety, Pet Emergency Supplies, Pet CPR and much more!

More Help Needed

It takes a village to respond to disaster. Service clubs, church groups, apartment complexes, homeowners associations, businesses and other organizations are needed help the City's response and recovery efforts. To register as a participating organization, and find a way that you can be involved, go to www.cupertino.org/emergency and click on the Emergency Readiness Survey. Call 408.722.1210 for more information.

Holiday Fire Safety

Make sure every **smoke detector** in your house has **fresh batteries!** Your smoke detector could save your life! If you use your fireplace or a space heater to heat your home, install a carbon monoxide detector in the room with the heater.

Live Christmas trees must be **watered**

regularly, and discarded when the needles begin to fall.

Candles should be placed in **fireproof containers** and kept away from combustible decorations, gifts and furnishings. **Never leave a lit candle unattended!**

Wiring for lighted or moving decorations must be installed to avoid trip-and-fall hazards and wear on the insulation. Care should be taken in stringing lights together to ensure the outlet and extension cord are rated to handle the amount of electricity being used. Use only **lights marked for outdoor** use in the outdoors.

Do not overload the electrical outlet. Use a power strip with a fuse to connect several sets of lights to one outlet. This fuse will prevent overloading of the house wiring, which could cause a fire.

If you do only one thing to prepare this month...

Think safety! Christmas is a great time to remind loved ones that their safety is important to you. Purchase emergency supply kits for elderly family and friends and make sure they know how to use them. Identify a "buddy" who can check on them after an earthquake – or any day.

by Gail Fretwell-Hugger

One of the best aspects of the Christmas holidays is the wonderful music of the season. (Thankfully, Madison Ave marketing does not yet extend to playing carols at the same time all the commercialism begins in stores in September and October.) Those of us who grew up in Santa Clara Valley in the “olden days” fondly remember the Christmas pageants in school, caroling in the neighborhoods and hot chocolate when we all tramped back to church or a house afterwards.

One of the most beloved Christmas songs (and the most recorded song in history) is “Silent Night,” a carol with a fascinating history. Created out of necessity and performed in a tiny village on Christmas Eve by two ordinary Austrians and a tiny choir, this beautiful, simple carol owes its debut to an organ that wouldn’t play and a priest who wouldn’t hold Christmas Eve mass without special music.

In 1818, a young priest in Obendorf, Austria, found to his horror the church organ wouldn’t function on Christmas Eve and the midnight service was just hours away. He had planned the service for months. No amount of fiddling with keys, stops or pedals made the organ work. The priest gave up and prayed for inspiration. He remembered a poem he had written two years before. Finding the scrap of paper in his meager possessions, he rushed out into the wintry night to the drafty apartment of the village schoolteacher and begged him to set the words of the poem to music, to enable the little church choir to sing with guitar accompaniment. The teacher was charmed by the simple poem and set to work composing chords. What should have taken weeks was accomplished in hours and just 4 hours later at midnight mass the tiny choir sang out “Silent Night” in four-part harmony.

Later, an organ builder and repairman jotted down the words and learned the melody and as he traveled in his profession, he introduced “Silent Night” to many churches and towns in Austria. Later still, a traveling group of singers sang the carol to a large crowd in Leipzig. King William of Prussia, deeply moved by the song’s message, requested his nation’s Cathedral Choir to sing “Silent Night” (known as “Stille Nacht”) at his annual Christmas celebration. From Prussia, the song traveled across much of Eastern Europe and on to Great Britain. In December 1839, an Austrian singing group performed the

carol in English at Trinity Church in New York and by the Civil War in the 1860’s; it had become America’s most popular Christmas carol.

During the horrific fighting between the Union and the Confederacy, it was not unusual for hostilities to cease for 4 days starting on December 25, with troops from both sides laying down their arms to come together to worship, share gifts, read Scripture and sing “Silent Night”. By the late 1800’s the song had been translated into more than 20 languages. Today, at Christmastime, it is sung in countries all around the world. (Although a legend grew up that a mouse had chewed through the organ bellows and disabled the organ, the simple truth was that the instrument was old and broke down due to the extreme cold temperature)

A very blessed Christmas and holiday season to one and all in Cupertino.

February 16 - Free Compost Classes in Cupertino

The City will hold a free "how-to" backyard compost workshop at Cupertino's Community Hall, 10300 Torre Ave, Wednesday, February 16 from 7 - 9 pm. To register, please contact the City of Cupertino Public Works Department 408.777.3354. Cupertino residents attending one Compost or Bay Friendly workshops will receive a free Home Composting Bin within two weeks after the class. Only one compost bin per household. Email environmental@cupertino.org for details.

Interested in becoming a Master Composter?

The County of Santa Clara Master Composter program is a volunteer organization designed to spread the word about backyard composting in Santa Clara County. Composting yard waste and food scraps are the most effective way to reduce waste, and also benefit local soil, water conservation and storm water protection. Residents can become an agent of change in this process by participating in the Master Composter Volunteer training program. There is a materials charge of \$50 and participants receive training materials and instruction. Scholarships are available upon request. After graduation volunteers are required to provide 50 hours of volunteer service in the County. Training begins in January. Application is available at www.ReduceWaste.org. Deadline to register is December 8, 2010.

Flood Preparation

As this year's rainy season begins, residents should check to be sure that they're prepared for the possibility of flooding in their neighborhoods. Those with property located in a flood zone especially should be aware that standard homeowner's insurance policies do not cover losses caused by

floods or mudslides. Property owners can protect against potential flood damage by purchasing flood insurance and by preparing a family disaster plan.

According to the Santa Clara Valley Water District, some areas in Cupertino along Calabazas Creek are considered at risk for flooding; property near Stevens Creek is also at risk, but to a lesser degree.

The City provides the following services to help residents prepare for potential flooding:

1. Residents can find out if their property is in a flood zone by visiting the Cupertino Public Works Department (call 408.777.3354 for details). The Public Works Department also offers elevation certificates for new buildings constructed in the floodplain.
2. The City's Building Department has a booklet called "What You Should Know Before You Hire a Contractor". Booklets are available at the downstairs counter at City Hall.
3. Other information on flood preparedness is available on the Cupertino website at www.cupertino.org/emergency.
4. Additional flood protection information and assistance can be obtained on the FEMA website at www.fema.gov.
5. The Cupertino Library also holds publications for flood preparedness.

The City's storm drainage system is composed of street gutters, storm drain sewer inlets (at street corners), and pipes that connect the inlets to local creeks. This system drains street runoff into the creeks and channels on the valley floor. Residents can assist the City, and help protect their immediate neighborhood from localized flooding, by sweeping gutters regularly and checking nearby storm drain grates are not covered with leaves or litter. Residents should abide by street sweeping/no parking signs to allow the City to keep the gutters clean and the storm drain system flowing. The City routinely sweeps the gutters in residential areas twice a month and in commercial areas once a week.

In the fall, before the rains start, a City contractor vacuums out City storm drain inlets, and checks for any evidence of hazardous materials in the drains. This cleaning prevents any illegally dumped materials that may be sitting in the inlets, from washing into our creeks with the first rains. It is illegal to dump anything into a creek or a storm drain. Residents can report dumping incidents to the City by calling 408.777.3269 during office hours and 911 after hours and on weekends.

» Recycling During the Holidays

Almost Everything Can Be Recycled or Composted

Did you know we will create more than 25% more waste during the holiday season than any other time throughout the year. By practicing simple, earth-friendly behaviors, we can significantly reduce the amount of garbage land filled during the festive season. Here are some recycling and garbage reminders:

Christmas Trees: Christmas trees will be collected at homes in Cupertino on regular collection days during the month of January. Cut trees into 5-foot lengths, with all decorations and stands removed. Place trees in your tan yard waste cart or at the curb. Trees will be picked up at apartment and condominium complexes during the same period. Managers should call Recology Cupertino when the complex is ready for tree pick-up: 408.725.4020. Flocked trees are accepted for composting.

Corrugated Cardboard: Corrugated cardboard can be placed in the blue recycling cart or flattened and placed alongside your recycling cart. Boxes must be flattened and cut into 3-ft by 3-ft pieces. If desired, large quantities can be taken to the Sunnyvale Recycling Center at the north end of Borregas Ave. Call 408.752.8530.

Styrofoam: Blocks of Styrofoam and Styrofoam “peanuts” will no longer be accepted with the City’s recycling program.

UPS Stores will accept Styrofoam “peanuts” for recycling. The closest stores are at 20660 Stevens Creek Blvd. 408.213.219 and 1072 S. De Anza Blvd. 408.253.6561.

Wrapping Paper: Gift wrapping paper can be included with other curbside recycling. (Most apartment and condominium complexes have paper recycling in toters.) Plastic-coated, foil wrapping paper, ribbons and bows cannot be recycled.

No limit: Remember there is no limit to the amount of recyclables that can be set out on your collection day. Extra recyclables can be placed in boxes and set next to full cart.

Produce less Waste and Smart Holiday Shopping: Avoid producing unnecessary waste that needs to be recycled or disposed of this holiday season.

Make these practices part of your holiday routine:

- Give an experience and create a cherished memory, with tickets to a movie, sporting event, stage play, restaurant, salon spa, and manicure/pedicure. The choices are endless!
- Package gifts in reusable gift bags
- Bring your own reusable bags to the store

**Be creative and have fun.
Have an environmentally SMART
and “GREEN” Holiday Season!**

» Extra Holiday Trash?

On-Call Disposal Days: Residents (with garbage can service) are reminded they have the option of using their two free On-Call Disposal Days for disposal of large amounts of trash. Schedule a Disposal Day by calling Recology Cupertino at 408.725.4020. For details, visit the Recology’s website at www.recologycupertino.com (click On-Call Collection).

Extra Bag Tags: Another option for residents who periodically generate extra garbage is “Extra Bag Tags.” Place extra trash in plastic trash bags and attach a tag to it where your garbage collector picks up. Bags cannot be larger than 32 gallons or weigh more than 25 pounds. Tags cost \$6.21 each or 10 for \$59.01, and are available from Recology Cupertino, call 408.725.4020.

Santa Clara County Hazard Mitigation Plan

The City of Cupertino is collaborating with Santa Clara County to update our local hazard mitigation plan. This plan outlines mechanisms for increasing our community's resiliency to natural hazard events (earthquake, flood, wildfire, etc.). Hazard Mitigation is defined as "sustained action taken to reduce or eliminate the long-term risk to human life and/or property from natural, human-caused, and technological hazards and their effects."

Your feedback is critical to increasing local resiliency. Please take a few moments to complete the brief survey at: www.surveymonkey.com/s/2010SCCHMP. (The survey will be available online through Friday, December 3, 2010). If you have any questions regarding the survey or opportunities to participate in the plan update, you may contact Corinne Bartshire at 510.834.3326 or cbartshire@dewberry.com. We sincerely appreciate your time and cooperation in helping our community become more resilient.

Are You Green@Home?

Is your family interested in cutting utility bills by working together to save energy and water in your home? What if you could do this as part of a Cupertino-wide competition, where you are rewarded for your achievements? Residents of Cupertino are invited to participate in the new Are You Green@Home? Challenge, where top energy, water and greenhouse gas saving residents in the month of December and January will receive a \$50 gift card to sustainable grocer Whole Foods Markets in Cupertino. Also, top savers' environmental actions will be showcased in the Cupertino Scene.

Green@Home is a free service, offered through a partnership between the City and local nonprofit Acterra, to help Cupertino families save money, energy and water. This retrofit program is paid for by the City and supported by federal grant funds. Green@Home is not a sales call; it's a community-wide initiative to cut carbon and get results on a household by household basis. Lastly, it's available to everyone; whether you rent or own your home! If you're ready to join the challenge, sign up for a HouseCall today at www.acterra.org/green@home or call 650.962.9876 x 380.

Volunteers Needed

Volunteers are needed to help conduct mock citizenship interviews for Sunnyvale-Cupertino Adult and Community Education's ESL/Citizenship Interview Preparation Class. This is a commitment for one morning only, Saturday, December 11, 2010, from 9 - 11:30 am. Since many prospective citizens are apprehensive about the interview process, this one-day class gives students an opportunity to practice for their citizenship interview in a relaxed and friendly setting. As a volunteer, you will ask prepared questions and dictate prepared sentences, thus simulating an actual interview. Training for volunteers will be done on the morning of the class. If you are interested, please call Linda Brummer at 408.522.2733.
