Shakespeare in the Park 2013 Presents Macbeth

Free

The San Francisco Shakespeare Festival

Show time 7:30pm: July 20, 21, 26, 27, 28, August 2, 3, 4

For the San Francisco Shakespeare Festival's 31st season, Ken Kelleher returns to direct Macbeth. Regarded as one of the Bard's major tragedies this is the first time SF Shakes has produced it for Free Shakespeare in the Park. Macbeth is memorable for its suspenseful plot and thrilling scenes of witchcraft and swordplay. Audiences will recognize Macbeth's famous soliloquies, including "Is this a dagger which I see before me?" as well as the witches' rhymes "Double double toil and trouble, fire burn and cauldron bubble," which have become an ingrained part of English-speaking culture.

Written by William Shakespeare Directed by Kenneth Kelleher

Bring your family, friends, a blanket, and a picnic to enjoy free professional theater in Cupertino's beautiful Memorial Park.

Cupertino Paperless Plans

Cupertino Community Development, Building Division is "taking the paper out of the plan" beginning this summer. This move eliminates the need for architects, contractors, or designers to haul large rolls of paper plans to City Hall, as they will be able to submit the plans for review online through a web application.

This new service allows all relevant people to review plans simultaneously. Architects, contractors and engineers will be able to access submitted plans, comment and act on them through a password-protected web-based system. In February 2012, Council unanimously voted to propel Cupertino into the 21st century and supported the eight month research process that led the City to conclude that paperless was the way to go.

Benefits of paperless building plans include: the ability for various offices to work on the plans simultaneously, ability to track and see plans as they move through the approval process and transparency in the process of building plan review.

Enjoy the Heat but Keep Your Cool!

This summer it's bound to get hot and with heat comes the danger of heat exhaustion. If untreated it could become heat stroke which is life threatening. When outdoors (or indoors without air conditioning) in the hot weather, you should know the warning signs and be prepared to avoid heat exhaustion. Heat exhaustion is brought on when the body's natural sweating cannot cool the body down enough and this causes overheating. The signs and symptoms are pale moist skin cool to the touch, profuse sweating, muscle cramps, feeling faint or dizzy, headache, overall weakness, thirst, nausea or vomiting, core body temperature over 100° F, and increased pulse rate. Some people may have any or all of the signs and symptoms above, depending on the person and severity of the heat exhaustion. The treatment is to cool down the body by going into the shade or air conditioning, drinking water or commercial electrolyte drink, and stop all strenuous activity.

Here are some tips to keep you and others safe:

- Plan ahead when going hiking, picnicking, to the beach or sporting events, even if you are just an observer. Bring and drink lots of water or electrolyte drink. There are lots of recipes on the web for make your own sports drinks or you can buy the commercial ones.
- Don't forget your pets! They need to drink plenty of water on hot days too.
- Check the weather report and plan activities on extremely hot days early in the morning or later at night when it is cooler.
- The young and elderly are more at risk, so check on them frequently during periods of extreme heat. Bring an older neighbor a cold glass of lemonade!
- Avoid alcohol or caffeine drinks during heat spells as they increase water loss.
- Wear light colors and loose fitting clothing when it is really hot and going out for extended periods. Bring along a water mister or fan. There are some great battery operated ones out there. Check the sporting goods stores to purchase one.
- Break up exposure to extreme heat with stops in shady areas or air-conditioned places. I am always up for a stop for ice cream or iced tea!
- Be aware of the signs and symptoms of heat exhaustion and don't be shy about pointing it out to someone who you feel may be experiencing heat exhaustion, no matter how mild.

Summer Camping and Hiking 'Bite' Safety

In addition to bringing plenty of water with you to prevent heat exhaustion, beware of the snakes and ticks. Like in the 'Old West' movies, Northern California parks and wilderness trails also have a danger of running into rattlesnakes, the most common venomous snake in California. Avoid walking where you cannot see the ground in front of you and if you see a rattlesnake give it a wide berth. If you do get bit, seek help immediately. Stealthier pest in the wild is the tick. With some ticks you run the risk of contracting Lyme disease. If you are bitten by a tick, gently grasp the tick with tweezers close to the skin and pull the tick out slowly. If you don't have tweezers, use your fingers protected with a tissue or rag. Remove any mouth parts left behind, wash with soap and water, and apply a mild antiseptic. If the tick has been feeding for a day or so, save the removed tick alive or in alcohol in case it needs to be tested for Lyme disease later. Most people who have contracted Lyme disease become ill within one to two weeks after being bitten. Seek medical attention if you think this has happened to you.

Upcoming Public Sessions

FREE! Personal Emergency Preparedness Workshop (PEP) Earthquake safety, disaster preparation, disaster communication tips, first aid techniques that save lives, home safety, fire safety including how to use a fire extinguisher, and more! The next PEP classes are on:

- Monday, July 1, 6 – 9 pm, Cupertino City Hall, (EOC), 10300 Torre Ave, Cupertino CA
- Monday, August 5, 6 – 9 pm, Monte Sereno City Council Chambers, 18041 Saratoga-Los Gatos Rd.

For registration send e-mail to info@cnt.sccgov.org, provide your full name, e-mail address, phone number and residential or work address in the West Valley, or contact the Santa Clara County Fire Department at 408.378.4010.

Community Emergency Response Team (CERT) training schedule. This is the perfect time to learn to be part of the disaster response solution. This is an intensive training session by the Santa Clara County Fire Department on preparedness and helping others during a disaster. You must be able to attend all classes for graduation. All classes are at Cupertino City Hall (EOC), 10300 Torre Ave
Simply Safe, continued on page 5

If you do only 1 thing to prepare this month:

Purchase an insulated water bottle or an insulated cover for a 12 oz water bottle. Then you will be able to bring it with you whenever you go out in the extreme heat. Try freezing the 12 oz plastic water bottles first and you can sip cold water for most of the day. Use the frozen bottles instead of ice in your coolers for picnics or camping. Once most of the ice in the bottles melts you have ice cold water to drink.

roots | A Tribute to Patriotic Music

by Gail Fretwell-Hugger

Every country and culture has music that celebrates its' history in melody and verse. Part of being a national people is the bonding that occurs between generations in learning and singing songs that help one and all remember and cherish the freedoms that have been so hard-won over centuries.

Francis Scott Key's "Star Spangled Banner" was based on a poem and set to music after he was detained on British ship during the bombardment of Fort McHenry. In the morning, he saw the tattered Stars and Stripes still flying over the fort and was so moved that he penned the verses to our national anthem when he was allowed to come ashore. Another of the great American patriotic songs that was written that same year (1831) is "My Country 'tis of Thee", written by Samuel F. Smith from Andover Theological Seminary. He wrote the lyrics in 30 minutes. The music comes from the national anthem of the UK, "God Save the Queen". It was first performed in public at a children's Independence Day celebration at Park Street Church in Boston and the hymn was published in 1832. It rivaled the "Star Spangled Banner" as the choice was debated over the years as to which song should be our national anthem and it is still widely used in public celebrations.

A catchy little tune that has lasted since before the Revolutionary War is "Yankee Doodle". The song was originally sung by British troops, ridiculing the disorganized, rag-tag colonial fighters – the "Yankees". There are many verses to the song and several explanations as to its' origin. One story says that the tune comes from a nursery rhyme, "Lucy Locket". For a more thorough explanation of the rhyme and song, check Wiki-

pedia. It has always been a children's favorite because it is easy to sing – both words and melody.

All the branches of the military have their own signature patriotic songs – from the Revolutionary War, Civil War, 2 World Wars through the Vietnam War's "Ballad of the Green Beret". Many of our states have patriotic state songs or songs that celebrate historic events. The state of Kansas has "Home on the Range" as their state song, which is known as an anthem of the great American West.

The following is a list of the 10 most popular and widely sung patriotic songs.

1. Star Spangled Banner
2. My Country 'Tis of Thee
3. God Bless America
4. America the Beautiful
5. Yankee Doodle Dandy
6. You're a Grand Old Flag
7. When Johnny Comes Marching Home Again
8. Battle Hymn of the Republic
9. This Land is Your Land

I left #10 open. It varies depending on what list you are looking at or a song that really speaks to your heart, so pick your own favorite for #10.

Let's all remember and thank those who have served the cause of freedom and liberty well throughout our history as we celebrate July 4th, 2013.

IMPORTANT UPDATE REGARDING CUPERTINO LIBRARY SERVICES

There is an important issue facing the Cupertino Library. Special taxpayer funding for the Cupertino Library has been in place for the past 20 years and helps maintain library hours and services, buy needed books and up-to-date research materials, and maintain children's reading programs. However, this funding is due to expire. Continuing this funding at existing rates will help maintain and protect these important library services, with no increase in taxes.

The special mail ballot election will be held this summer. Mail ballots will be sent out at the end of July and be returned by August 27, 2013. Please contact Mark Fink, Cupertino Community Librarian, with questions regarding this special tax measure at 408.446.1677 ext. 3300 or via email at mfink@sccl.org.

Eight Easy Tips for Preventing Waste

We Are All In This Together! Because over-watering and rain water may carry pollutants into local creeks from everyday activities like cooking, gardening, maintaining your car, and even cleaning your garage and medicine cabinet, it's important to prevent pollution at the source. Follow these tips to protect water quality every day.

- **Reduce Use of Toxic Pesticides and Landscape Chemicals.** Use pesticides and weed killers only when absolutely necessary and choose the least toxic product available. Do not apply chemicals to impervious ground surfaces, or if rain is forecast, or when you are watering, because the run-off may contaminate local creeks, the Bay and the ocean. Visit www.mywatershedwatch.org for tips on safe

and effective less toxic pest control options.

- **Properly Dispose of Household Hazardous Waste.** Contact Waste Management (WM) At-Your-Door service to collect your household hazardous waste. An appointment for collection can be made at www.wmatyourdoor.com or by calling 800.449.7587.
- **Don't Flush Unwanted Medication.** Some pharmaceutical chemicals persist through the wastewater treatment process and will end up in the Bay, where they may harm aquatic life. You may dispose of your medications at the West Valley Patrol Sub-Station, 1601 S. De Anza Blvd, Cupertino 408.868.6600.
- **Prevent Fats, Oil and Grease from Going Down the Drain.** Keep your pipes clog-free by collecting fats, oil and grease in one-gallon plastic containers with tight fitting, screw top lids. (Milk and water jugs with pop-on lids are acceptable.) Lids must be taped securely! You may place up to two one-gallon containers next to your recycling bin on your recycling collection day.
- **Don't be a Litter Bug.** Litter harms local wildlife and aquatic animals. Dispose of trash properly and recycle plastic bags in your recycling cart or at major grocery stores.
- **Help Cupertino Shop Green!** Take reusable bags shopping. Cupertino's Bag Ordinance goes into effect October 1, 2013. This ordinance will help reduce unnecessary waste and litter that is harmful to Cupertino's creeks, the Bay, and the ocean.
- **Wash your vehicle at a commercial car wash.** Washing your car on your driveway or the street sends dirty water, soap, heavy metals, oil and grease into the gutter which eventually flows to local creeks and the Bay. Instead, visit a car wash, where the drains lead to the wastewater treatment plant. A Watershed Watch Discount Card is available at www.mywatershedwatch.org.
- **Compost food waste** and use it as nutrient rich soil for your garden & recycle!

Creek Clean Up Event, Saturday, September 21

The City of Cupertino will be hosting a community cleanup on Saturday, May 18, from 9 am – noon at Creekside Park, 10455 Miller Avenue, Cupertino. Volunteers and City staff will clean up areas surrounding Calabazas Creek, which runs along Creekside Park. Gloves, trash grabbers, and other tools will be distributed. Volunteers are encouraged to dress for safety; wear old shoes, rain boots or equivalent, long sleeves, pants, and sunscreen. Free refreshments will be offered. Do something good for your community and have fun. Register www.cleanacreek.org or contact the City at 408.777.3354. Make it a family event!

The Citywide Garage Sale Is Coming

Cupertino's annual Citywide garage sale will be held September 21 & 22 at individual homes and private locations within the City. Residents and community organizations are invited to register on or after August 12 (www.cupertino.org/garagesale or 408.777.3354). Free advertising and a garage sale "How-to" kit will be provided online. Sale participants manage their own sales and keep the profits. There is no fee to participate. The last day to register if you want to be listed on the City's garage sale map and sale list is September 6. The City's goal in sponsoring a Citywide Garage Sale is to prevent usable items from being thrown away and to encourage the community to have fun!
